

Dear Sirs ,

I just heard that the FCC was considering tampering or eviwing Indiana's No Call List Law. I wanted to let you know how WONDERFUL the law have proven for us and our family life !! We now can live and not constantly be hassled and bothered all hours of the day and night by telemarketers , we got to the point of recieving at least 6 - 8 calls every every day , now we recieve at the most , maybe 1 or 2 a month !!! I work at a powerplant , and I give so much of my life to them , many times I work all hours of the night , and I absolutely hate to be awaken and it be a telemarketing company !! We never knew what it was like to be able to sit and eat a meal or visit with friends , as the phone was always ringing with some ignorant telemarketing scheme , many times we would try to be pleasant and tell them no , but , many of them went on and on , trying to get us or me to buy or try their product , and sometimes if we just hung up , they would call right back !!!!!!! Now we hardly ever get any calls , and God , how life has finally become liveable again ! We even considered taking our phone out , as our sleep , meals , family visits , and just quiet loving times together , were constantly interrupted and at all hours of the day and night " ALL HOURS"!!!! We pay good money for our phone service and it is just Wrong that someone can invade and hurt any ones family life and induce stress on a family , because of having a telephone "that we pay for" . Now we can live and not feel the stress of fear or concern answering the phone , now we know , if the phone rings it is either family , friends , an emergency or my work calling me in !! There is simply no way to describe how this Law has so drastically improved our life !!!!! We sincerely and respectfully ask you to Please not tamper with what has so helped and improved our lives and home !!!! Thank You and again Please do not damage what has truely been a God Send to so many families and lives !!!!

Sincerely ,  
Don and Valentina O'Brian
